WORK EXPERIENCE

feb 2023 - Present

WordPress Developer (As a Freelancer)
Karachi, Pakistan

As a WordPress Developer, my primary duty involves crafting and executing responsive, user-friendly, and captivating websites. In this role, transforming creative ideas into practical web applications. I have build projects: E-commerce Stores, Landing Page and business websites. Additionally, I stay abreast of the latest WordPress updates and trends within the industry. (I have work experiance on Fiverr)
